## WEBINAR

### “Reporting of climate finance under the UNFCCC”

**NEW DATE:**  
3rd of November

**TIME:**  
3pm CET

The Paris Agreement provides specific mandates to improve the reporting of climate finance information. But what provisions exist so far under the UNFCCC? Who has to report what and when in the current reporting system? Where are gaps and what recommendations can be made to improve the existing reporting system? How to create new modalities for accounting climate finance? How can these modalities support the creation of a transparency framework under the Paris Agreement?

These and more questions will be discussed by different organizations and climate finance experts. The goal is to give an overview of the existing reporting system and modalities under the UNFCCC and elaborate recommendations for the establishment of a new transparency regime in line with the provisions set out by the Paris Agreement

## Participants:

Sascha Oppowa, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ).

Federico Mazza, Climate Policy Initiative (CPI).

Sandra Guzman, Grupo de Finanzamiento Climático para Latinoamérica y el Caribe (GFLAC).
